

WARRANTY INFORMATION

All items, including all materials and component parts, are warranted to the original owner to be free from defects of materials or workmanship for a period of (2) two years from the date of receipt of the product to the original purchaser. All items have been carefully inspected and securely packaged prior to being turned over to the carrier for delivery. You must examine the item before accepting the goods from any carrier. Any apparent loss or damage must be noted on the freight bill at the time of delivery. If concealed damage is discovered upon unpacking, a claim must be entered with the carrier within five (5) days. It is suggested that you keep all cartons and filler materials to document and substantiate your claim. Upon receipt of your claim, Munder Skiles shall have the option to inspect the item and either repair or replace it. Any defective item must be returned to us freight prepaid in the original container or approved equal packing. No items will be accepted without prior written approval of Munder Skiles.

Proper maintenance, including routine cleaning, protective oil and/or painting is considered essential to the integrity of the item and is the owner's responsibility. All applied finishes are subject to the manufacturer's warranty. This warranty is void if there are unauthorized repairs or alterations made to the item or if improper maintenance, misuse, tampering, negligence or abuse occurs. This limited warranty may not be transferred to subsequent owners of the item.
